

The Falcon Facts

Welcome to The Falcon Facts, a brand new school newspaper, created to capture the heart of Forest Hills Lutheran School. Have any of you read The Landry News, by Andrew Clements? I suggest reading it, for it's a wonderful book. In The Landry News, it talks about a good-hearted newspaper and a bad-hearted newspaper. Both tell the facts. Both tell the truth, but bad-hearted newspapers tell the facts and truth in a way that can hurt harm or libel others. They try to serve it up in the meanest and cruelest way possible. That is NOT the purpose of The Falcon Facts. The purpose of this paper is to unleash all of the wonderful things that go on inside Forest Hills Lutheran School. If any of you find a bad-heart in this newspaper, please contact me.

Also, we are welcome to any submissions to The Falcon Facts. Just know, though, that not all of the submissions can be put into the newspaper. If any of you would like to permanently be on The Falcon Facts team of reporters, please let either Mrs. Jean Fazholtz or Jessi Beyer know. Again, we will not be able to accept everybody onto the team. If you wish to be on the team, please come with an entry when asking. If you would like to make a suggestion, but not submit an entry, that is fine, and feel free to contact the people listed above. The Falcon Facts will be printed every two weeks, so make sure to get your entry to Jessi Beyer as soon as possible.

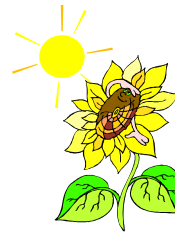

Thank you for being a major part in the production of The Falcon Facts, and we encourage you to continue to help out. Thanks a ton!

Jessi Beyer, Editor in Chief

How to Make a Peanut-Butter Birdfeeder

Here's a fun activity to do, and you'll be helping the neighborhood birds, too! All you need is a tree, sunflower seeds, a large pinecone, peanut butter, a butter knife, string, and a large plate. Here's how to do it: **Step 1:** Tie the string around the upper part of the pinecone. **Step 2:** Lather the pinecone with peanut butter. **Step 3:** Spread the seeds out all over the plate. **Step 4:** Roll the peanut butter covered pinecone in the sunflower seeds. Make sure to cover the whole pinecone. **Step 5:** Tie the other end of the string to a strong branch of a tree, not too close to the ground. **Step 6:** Watch the birds feast on your masterpiece!

If you would like to submit a "How To," contact Jessi Beyer or Mrs. Jean Fazholtz, the Principal

Falcons Lose 8-2 in Epic Battle at Indoor Goals

Shoot! Score! The Forest Hills Indoor Soccer Team went down in an epic battle at the Indoor Goals Indoor Soccer Rink. The Falcons only managed to score two goals against the opposing team. Substitute player Jessi Beyer was able to come and help out the soccer team, having only six players available. Now having six players on the field and one sub on the sidelines, Jessi was able to score one for the Falcons. After the ball rebounded off the opposing goalie's fingers, Jessi trapped it with her thigh and kicked it into the far corner of the net! Whoo-hoo! The second goal was scored by player Joey Landreville. Simon Kachmarek made a spot-on cross toward the goal, and Joey was able to get a foot on it and it flew into the net.

Despite having the shorter stick score-wise, the Falcons had an incredible amount of skill and passing accuracy for their first game, and every fan was cheering their heart out, giving great encouragement to everyone on the team. Everyone battled hard, and are deemed to improve throughout the rest of the season.
